(CMS Net) - Information Bulletin #213**

May 2007 Change Cycle

The following is a list of changes which were added to the CMS Net System for the May 2007 Change Cycle:

CMS Net Web

SAR Form: Removed additional lines on the SAR. The SAR will only print on one page when there are no special instructions.

Address on SAR: Moved the address on the SAR form to allow the addressee's name and address to display correctly when folded and stuffed in a window envelope.

Paneled Non-PMF Provider: All users may view Paneled Non-PMF Providers in the Provider Search screen.   Only users with a System Admin or Provider Mgmt security role will have the ability to add to the Paneled Non-PMF Provider table.

Dental NPI: Effective May 23, 2007, implementation of NPI for dental provider is required. The following changes were made to CMS Web:

- If a user search for a dentist with a Denti-Cal number and the Denti-Cal number is cross reference to a NPI, the system will display the NPI.
- All new dental SARs, Notice of Actions and denial letters will display the NPI number. If the provider does not have a NPI, the system will continue to display the Denti-Cal number on the SARs, Notice of Actions and denial letters.
- If an existing SAR is modified, cancelled or denied and the Denti-Cal number is cross reference to a NPI, the system will display the NPI.

NOTE: DENTAL PROVIDERS BILLING WITH A CGP# MUST REGISTER THEIR NPI WITH EDS.
